

ORACLE'S PRIMAVERA PRIMASTART PROGRAM

SETTING THE FOUNDATION
FOR YOUR PRIMAVERA
SOLUTIONS FROM ORACLE.

The success of your company is measured by the outcome of your projects. Whether you are launching a new product to market, implementing a new system, maintaining a plant, or building a new facility, a project is successful when it positively affects the overall enterprise. Therefore, it is essential to ensure that projects come in on-time and within budget to improve the corporate bottom line and generate the highest return on investment.

Oracle Consultants Provide Technical and Business Guidance

Oracle offers a comprehensive, multi-project planning and control software suite for managing all of the projects in your enterprise. To ensure a successful outcome, an enterprise solution requires deliberate upfront planning and implementation. The Oracle consulting team is available to help you quickly implement your Primavera solutions.

It is important to have the right combination of software installation, readiness assessment, design, coaching, validation programs, and rollouts for a successful implementation. The Oracle consulting team offers a full complement of project management and technical experts who are committed to meeting your implementation requirements. We understand that determining the service needs of your organization can be overwhelming. To help simplify this process, Oracle created PrimaStart, a four-week jumpstart program developed to help customers understand the implementation process and assist with the installation and initial configuration of your Primavera solutions.

PrimaStart offers organizations the perfect combination of technical and business guidance to lay the foundation for a successful implementation. It is the ideal plan for organizations that are looking to reduce the time, risk and apprehension of implementing a new enterprise system.

Invest in a PrimaStart Package

Take advantage of PrimaStart and take the first step towards a satisfying implementation experience. The PrimaStart package includes several components including:

- Installation in a development and production environment including:
 - One Primavera Project and Methodology Management database
 - Primavera server applications including:
 - Oracle's Primavera P6 Web Application Server
 - The Group Server

WHY ORACLE CONSULTING

- Leading Expertise: Oracle's own experts providing thought leadership for every Oracle solution.
- Broad Coverage: "End-to-end" lifecycle services across the entire Oracle product footprint.
- Global Scale: 13,000 Oracle experts in 145 countries, serving over 20 million users.
- Unified Methodology: Based on industry standards, high quality results across complex projects.
- Flexible Delivery: Onsite, offsite, and offshore, along with innovative solutions such as Rapid Starts and Expert Services.

- Job Services
- Web Services to support the Oracle Primavera Portfolio Management bridge to Oracle's Primavera P6 Enterprise Project Portfolio Management
- The facilitation of configuration and mentoring workshops for 1-8 Primavera P6 Enterprise Project Portfolio Management administrators or super-users. Topics to be covered include:
 - Enterprise configuration of Primavera P6 Enterprise Project Portfolio Management coding libraries, access profiles, and admin preferences
 - Single and multi-project Critical Path Method (CPM) based scheduling
 - Resource assignment and forecasting
 - Baselining
 - Schedule updating
 - Earned value reporting
 - Cross project or portfolio reporting
 - Microsoft Project importing
- Mentoring workshops for up to 20 users

At the completion of the PrimaStart program, your organization will have a solid foundation for successful enterprise project management. Additional services may also be recommended to help streamline project processes, provide additional coaching and determine reporting processes.

How We Are Different

The Oracle Consulting team is focused exclusively on Oracle Technologies, and we have the experts that others turn to for leading practices in Oracle software implementations. We know Oracle best and can provide your business with tightly integrated, comprehensive, superior services throughout your ownership experience.

Solutions Made Easy

Oracle offers a variety of flexible implementation services. A comprehensive six-step implementation program includes on-site consulting, software installation, custom workshops, manuals and reports, and a variety of coaching and educational programs. To learn more about upgrade assistance or the implementation program that is right for you, contact your local Oracle representative or visit
